John,

I sent her an email, we really don't speak, asking her to call you and included her number. Those dates would have been Nov. 1-4, maybe the 10th or 11th, or the week of the 14th thru 18th. She was not here the rest of the time. I was not here in October.

I thought I had some copies of some notes she made but have not been able to locate them. My phone records yielded no calls either thru the phone switch here.

I could arrange for you to bump into her if you let me know. I have the kids every over week and I could let you know where to find her if you are this way again. Let me know.

Her assistant, Carol Wilson, who is still here, remembers the visit too. She thought it was "strange."
