

Biden, Pelosi, and Treasury Secretary Paulson Eliminated 796,375 Medicare Providers in 2008, or 52% Nationwide. Medicare Trust Funds were Weaponized by HHS, DOJ, and IRS to Swing The 2008 Election for Obama and Again in 2009 for Obamacare – The Untold Story of Paramedic Jim Jones and his 15 year Quest Against the Cabal

In November 2023 James C “Jim” Jones, CEO, Paramedic, and founder of Lifeline Ambulance Service, stands in front of rotary file cabinets with millions of dollars of ambulance claims from 2008 he was frozen in time with. HHS booted him and 60% of healthcare providers overnight in Virginia in May 2008 from the Medicare Trust Funds without cause. The Trust Fund inverted in 2007 from the 2008 Great Recession when more was going out than coming in due to unemployment and spending. The IRS immediately froze and blocked them over purported taxes for these calls they were never paid for to begin with, all within 90 days.

Jones discovered later over 4000 providers, 15%, disappeared in Virginia between 2008-2009, and 582,791 - 796,365 nationally, or 38% - 52%. The 21 year old company was unable to “float” the Fund more than several months in the 2008 credit freeze and stopped responding to calls in October after diesel fuel doubled in May too. The Fund controlled 80% of their cash flow directly and indirectly. In all, \$17M was held hostage.

In a March 25, 2008 press release from the U.S. Department of Health and Human Services (HHS) reported: “This year the HI Trust Fund [Hospital] will spend more than its income, and from 2009 through 2017, about \$342 billion will need to be transferred from the Federal treasury to cover beneficiaries' hospital insurance costs.”

In another press release of April 23, 2012 Center for Medicare and Medicaid Services (CMS) reported: “HI expenditures have exceeded income annually since 2008 and are projected to

continue doing so under current law in all future years” Jones reports “it is very clear HHS, the Treasury and Internal Revenue Service (IRS) & DOJ intentionally targeted providers.”

Nancy Pelosi, Speaker of the House, then Senator Biden, Obama’s Affordable Care Act (ACA) salesman and V.P. pick, and Treasury Secretary controlled the Trust Funds 2007–2008 when Democrats were in total control of Congress with a veto proof Senate.. “It’s clear today we were targeted in a ruse, kicked to the street to make way for Obamacare and ripped off” says Jones. “It is extremely clear they committed high crimes weaponizing the funds to oppress opposition to Obama and “balance the budget.” The HI fund is mandatory, Part B or SMI Fund is not, it is voluntary with 85% straight from General Funds, or \$250B in 2008.

“They killed 2 birds with one stone, kicked us out without notice and did not pay.” Not only did they use this to get Obama elected, they kept health insurers and states from having to pay too. This “shored up” everyone’s budget, except providers. After they got Obama elected, he weaponized the funds again to pass the ACA. The whole time Obama’s extorting physicians he is culling them behind their backs. The American Medical Association was outgunned.

Paulson got \$700B in funding he needed from the Democratic controlled Congress in 2008 and spread it around on Wall Street but providers were shut out. Bush and Cheney’s hands were tied by that veto proof Congress they used in July. There was nobody to complain to for starters, and providers were being bombarded with a series of ruses by HHS, CMS, Treasury and IRS.(Cabal) The economic recovery plan was supposed to create and keep jobs in 2008.

Paulson as Treasury Secretary was Managing Member of the Medicare Trust Funds. Pelosi, and then Senator Biden and “his” Senate were the “real people” over the funds. They weaponized the withheld funds again to garner support for the ACA. “They used the funds to elect Obama and pass the ACA” says Jones. “Insurers had plenty to spend on lobbying after not paying providers.” Romneycare, as it was known in Massachusetts, had busted the state budget by then. Everything 2008 - 2010 ACA critics forecasted has arrived today.

In August 2018 Jones tripped the Cabal Alarm after filing a \$140M Tort Claim against HHS for putting him out of business. He knew he was far from alone but HHS lied to everyone non-stop from 2008 to 2010 in a series of ruses to hold payments hostage, sued him and others for a fictitious overpayments they manufactured, sicced the IRS hatchet people on him all in 90 days, It was a Titanic like experience for Medicare providers.

Jones used HHS’s own records against them, reported them to congressional members as he plowed along but that Tort Claim should have been a WhistleBlower Complaint. He realized this was government mass conservative targeting by 2015. Jones’s predecessor in the industry was put out of business in the exact same MO circa 1990. A new city manager from Michigan stopped paying their contractor for 911 services, dragged payments out for months with budget excuses, slapped them with a fictitious tax bill, took the business and set up a nice sort of slush fund. The contractor later won his tax case and the bagman went to jail in the end. The Cabal seized the opportunity without any moral capacity for the public trust, a creature of opportunity writing its own rules, operating without oversight.
